

Per- and polyfluoroalkyl substances (PFAS)

Sonitron NV

Kasteelstraat 93 – 9100 Sint-Niklaas, Belgium

This statement concerns Per- and polyfluoroalkyl substances (PFAS) according to the OECD definition - substances that contain at least one fully fluorinated methyl or methylene carbon atom (without any H/Cl/Br/I atom attached to it).

This includes Perfluorooctanesulfonic acid (PFOA) and its salts, and Perfluorooctane sulfonate (PFOS) and its salts.

This declaration concerns all products available on the Sonitron website:

<https://www.sonitron.be/>

- Sonitron Buzzers & Transducers
- Sonitron Alarms & Sirens
- Sonitron Piezoceramic Speakers Amplifiers

The above listed products do not contain intentionally added Per- and polyfluoroalkyl substances (PFAS), nor are PFAS used in the manufacture of these products.

We can confirm that to the best of our knowledge the Sonitron products are in compliance with the PFAS regulations and do not intentionally contain any of these substances.

This statement is based on our current level of knowledge and relies on composition information provided by our raw material suppliers. Based on this information we do not expect PFAS to be present. We do not routinely analyse products for the presence of any substances referred to, or for impurities which may be present in the final product.
